CONFERENCE DEADLOCKED

Employers' Group Declare Emphatically For The Open Shop

Washington, Oct. 11.—There must be industrial co-operation if production is to increase, and employer and employee must meet on common ground, the employers group declared yesterday in a resolution submitted to the Industrial Conference in answer to the programme which the labor group has advanced.

Because of disagreement in the Committee of Fifteen, struggling over the labor resolution to arbitrate the steel strike, the Industrial Conference again came to a deadlock and adjourned until Tuesday with the hope that by that date the difference can be ironed out sufficiently to allow the conference to proceed.

The committee yesterday considered the steel strike question without being able to report out the resolution. The majority of the employers group oppose it, and there are a number in the public group which will vote against it. The steel strike, some contend is virtually over, and many of the delegates deplore its introduction into the conference. Whatever action may be taken by the committee, it is certain that the issue will eventually come to the floor to be fought out in open session.

The employers group in outlining its position declared emphatically for the open shop, the issue on which the steel strike hinges. There should be no interference of the open shop and the right of the employer and his men to continue their relations on that principle should not be interferred with, it was argued.

The stand of Judge Gary was again upheld when the resolution of the employers' group declared that no employer should be required to deal with men or groups of men who are not his employees or chosen by and among them. At the same time the report emphasizers the fact that the right to strike should not be denied when all other means have failed.

FUTURE SUCCESS OF VA. SHIP ASSURED

This Corporation Has Purchased All Ships It Has Built

DISPELS UNCERTAINTY

Ships Built In Alexandria Rank Among Best Afloat Says Shipping Board Officials.

The average Alexandrian may not have appreciated the significance of the recent purchase by the Virginia Shipbuilding Corporation of all the ships which this corporation has built, is building and which it contracted to build for the United States Shipping Board Emergency Fleet Corporation.

All other shipyards with Emergency Fleet Corporation contracts are nearing the completion of their contracts and are, therefore, forced to depend upon contracts with outside firms in order to keep their yards busy. In the great majority of cases such contracts have not been available. The position of the Virginia Shipbuilding Corporation, however, is different. The new contract with the United States Shipping Board Emergency Fleet Corporation provides the Virginia Shipbuilding Corporation with the ships themselves after they have been built. The corporation may in other words, "eat its cake and have it too."

Its continuance as a going concern is therefore, assured. The uncertainty regarding the future of this big plant for years to come is dispelled.

Officials of the Shipping Board are authority for the statement that the ships built at Alexandria rank among the best afloat. The corporation has recently been organized on a peace-time basis and the yard force, which now numbers 2000, has been welded into a compact, efficient and loyal organization.

Alexandria is to be congratulated upon having a corporation headed by far-sighted executives who have so quickly stabilized the Virginia Shipbuilding Corporation and assured its future.

STRIKE DELAYS MAGAZINES

Unprecedented labor troubles in the printing and publishing trades in New York City is delaying the publication of a number of prominent magazines.

Among these is the November number of Cosmopolitan which ordinarily would now be on sale in Alexandria as well as all over the United States. The publishers are planning an edition of 1,230,853 copies—largest in the history of the Cosmopolitan Magazine.

Wholesalers in this vicinity, however, have been informed that the next issue of Cosmopolitan may reach here anywhere from ten days to two weeks later than usual—and may, indeed, reach here even later than that. Everything depends upon the labor situation.

This will naturally be a grave disappointment to those who are reading Cosmopolitan regularly and are in the habit of getting it about the tenth of each month.

Among the novels now appearing serially in Cosmopolitan, publication of which will be delayed, are "Kindred of the Dust" by Peter B. Kyne; "The Crimson Tide" by Robert W. Chambers and "Uneasy Street," by Arthur Somers Roche.

It is hard enough to wait for the short stories we may expect to find in the next Cosmopolitan without being kept in suspense as to the continuation of the joys and the sorrows of the characters depicted by these eminent novelists.

An advertisement in Alexandria will announce the appearance of the next issue of Cosmopolitan Magazine. Wait for it and watch for it!

THE E. A. MORSE TO SPLASH OCT. 25

Miss Anna E. Morse Sponsor—Will be Fifth Launching—Keel For Ninth Ship Soon Ready.

The fifth big freighter to be built by the Virginia Shipbuilding Corporation will be launched at twelve noon on Saturday, October 25th.

The ship is named for the Vice President of the Virginia Shipbuilding Corporation, Mr. Edwin A. Morse, son of Mr. C. W. Morse, Chairman of the Board of Directors of the corporation, and President of the United States Steamship Company which owns the Virginia Shipbuilding Corporation.

The sponser who will christen the ship is Miss Anna E. Morse, the only daughter of Mr. C. W. Morse.

The "E. A. Morse" has a deadweight carrying capacity of 9,400 tons is 402 feet 6 inches in length, and 53 foot beam. Her contract speed is 11 knots, but as all previous ships from this yard have exceeded their contract speed by at least one knot, it is contemplated that the "E. A. Morse" will be faster than her calculated speed. She is of Isherwood construction, 2,800 horsepower, has water tube boilers, and will carry a crew of 52 men.

The "E. A. Morse" has been built under the supervision of F. T. Warner, Plant Manager; R. M. Much, Assistant Plant Manager; George Cain, general superintendent; Fred Anderson, Hull Superintendent; and the following foremen; A. J. Sharpe, foreman of the ship; L. Foster, burners and welders; F. E. Bullington, anglesmiths; C. H. Johnson, riveters; Frank Anderson, steel erectors and riggers; C. W. White, ship fitters; J. H. Hewitt, joiners; P. R. Gardner, sheet metal; T. Doughty, painters; N. Dillon, laborers; A. C. Miller, ship tool shop.

The technical work at the Virginia Shipbuilding Corporation is under the supervision of G. M. Lagergren, on hulls, and S. A. Johnson, on engines.

It is estimated that the cost of the "E. A. Morse" is approximately $1,750,000.

Immediately following the launching of the 'E. A. Morse" the keel for this Yard's ninth ship will be laid. The sixth ship which has not yet been named, will be launched in December.

TO BE ELECTROCUTED

Virginia Jury Fixes Death Penalty for Attacker of Girl of 14.

Danville, Va., Oct. 11.—Justice was swiftly melted out yesterday in the Henry county circuit court, when Paul Hairston, a negro, not over 17 years of age, who, on Wednesday, criminally assaulted a 14 year old white girl, was sentenced to die in the electric chair. No further fight will be made for the freedom of the defendant. The trial occupied three hours and the jury remained out less than fifteen minutes.

A physician who made an examination as to the negro's mentality, reported to the court that while the defendant was probably not normal, he was not so simple as not to realize the heinousness of the offense.

JONES'S POINT LIGHTHOUSE

Eight years ago, or after Baptizing Cove had been reclaimed, the Treasury Department, it was stated, intended to abolish Jones's Point lighthouse, at the extreme southwestern point of the present city of Alexandira. It was suggested that the new formation of land made a light at that place unnecessary. After the Virginia Shipbuilding Corporation erected its huge plant upon the site of the old cove, the utility of the light was still farther minimized.

When the lighthouse was erected, a white light was displayed. A few years ago this was changed to red; now a disappearing light is flashed throughout the night. This change from a stationary to a disappearing light seems to indicate that the government is not seriously considering the removal of the light

The lighthouse has been an Alexandria landmark during the past sixty-one years. It was erected in 1858, at which time illuminating oil was used. Later the gas mains were extended to Jones's Point at the request of the government. The us of gas, however, was abandoned years ago, and oil again utilized,

Jones's Point, so long used as a carousal for Alexandrians, practically passed away at the advent of the shipbuilding corporation, as it is at present, forms part of the mainland, It is now but a memory

CHRISTIAN DEMOCRACY

Rev. W. M. Walker, of Philadelphia, made an address on "Christian Democracy Defined," before the Baptist Association one day this week, in which he asserted that the forces which seemed adequate to safeguard the future well being of mankind had broken down completely when comelled to grapple with an overwhelming crisis, and a feeling of utter helplessness had taken possession of the people.

Speaking of the social perils of the hour, he said: "By many the question as to what is right or wrong is no longer recognized as vital, and the tremendous strain to which our institutions are being subjected is the result. Two of the great problems today which are an occasion of apprehension are the cost of living and the labor situation. Radical leaders are proposing that organized labor shall take society by the throat and enforce the demands which it has formulated. The question as to what is right is scarcely considered. They believe that they are able to substitute for the rule of democracy the autocracy of labor, and they are threatening to paralyze the industries of the nation if their proposals are not accepted.

"A Christian democracy stands for a square deal for every one, no matter who he is or what his occupation. So long as men are differently endowed there will be a difference in their attainments. There will be some who are fitted to lead and some who are only able to follow. But every man ought to be allowed to make the most of his God-given powers and to enjoy the right of life, liberty and the pursuit of happiness. In a Christian democracy that is the goal of human effort and nothing else will suffice. I am sure that it cannot be attained by fanatics and faddists and radical extremists who sow the seed of class hatred and kindle the flames of industrial disorder in order that what they conceive to be their own interests may be advanced."

THE CASE OF NOAH

Dr. Leffman, in an address in Philadelphia this week, remarked that one of Noah's first acts, after he had found a dry spot near Ararat, was to plant a vineyard; and later to get himself drunk with the product. At this juncture the Rev. Dr. Homer W. Tope, district superintendent of the Anti-Saloon League, rushes forward to explain things. "There are plenty of vineyards," says he, "but their existence gives no one the right to get drunk. It might have been all right for Robinson Crusoe to plant a vineyard and drink wine made from the grapes it produced but Crusoe was living alone. The moment he found another human being on the island he would be forced morally to consider the effect his drunkenness would have on his fellow-creature or creatures."

A paper of the Quaker City in commenting on the above says, "blessed is our generation in that we have with us so learned an interpreter of the law as Dr. Tope. There are many things in the Bible which we did not wholly understand before. This vineyard planting of Noah's used to bother us, for if the vine is in itself a wicked institution we could not understand why the Lord, in His intimate talk with Noah, shortly before this lamentable first adventures with the grape, had not commanded him to shun it.

There's no harm in being a home town, according to Topic logic. Now if Dr. Leffman would only make another speech, referring to a certain marriage feast at Canaan, Dr. Tope might be induced to come forward and clear up another difficulty of ours."

ESSEX MOTOR CARS

Now Note This

Owners Reflect a Definite Joy in its Operation that is Unusual and Distinct

Essex Quality

You have observed that owners are unusually proud of the Essex.

They manifest it in their speech, their driving and the particular way in which they care for their car.

Such enthusiasm is natural to all who know it. You catch some of its influence if you watch the Essex and the owner in action.

Note Their Joy As They Drive

People drive the Essex with evident joy. The buoyancy of its response to the throttle is distinctive. Haven't you noticed how Essex drivers seem to fit in with the action of the car? They are alert and confident. The Essex responds to every whim of the driver. It glides as smoothly as a canoe drifting down stream or rushes silently by with the speed and freedom of a bird

It is a quality that accounts for motoring pleasure.

All cars run, no one questions that. Most of them travel fast enough. But there is a difference in the way they run. The Essex is speedy without offering protest in sound of effort.

Do They Analyze the Causes?

Certainly most owners do not examine the causes which account for Essex performance.

When they tell you of its buoyancy they do not, as a rule, explain that light weight, a powerful motor and a rigid frame, all carefully balanced, is the explanation.

Nor do they mention mechanical construction when they tell you how easy it is to drive the Essex, or how comfortably it rides.

They Accept it as They Do its Performance

Of course we know why the Essex is giving such satisfaction. It is a new type.

Because of its lightness as well as durability, its economy and at the same time performance, men accept it as it was designed to be, the car of tomorrow the embodiment of all that is desirable in both the light weight car and the large costly automobile.

It meets all service needs as owners of large, costly cars have learned to know those qualities. Yet it is moderately priced, and the operating cost is comparable to that of light cars. The Essex has proved that performance, durability, moderate cost and economy of operation may all be found in one car.

The Essex calls for little attention. It is free from many annoyances that interfere with the pleasure of motoring. It is because the Essex meets every motoring need without requiring much attention to keep it in running condition, that people speak of it as they do.

HELD AS SLAYERS

Victim of Assault Identifies Couple as Ones Who Attacked Him

Macon, Ga., Oct. 11.—Sheriff's deputies and the police have arrested Albert William White and wife, said to be cotton mill workers, who came here recently from Columbus, following a strike in that city, charged with the murder and robbery of Andrew J. The Washington Policemen's Union last night voted unanimously to return its charter to the American Federation of Labor.

"This action," said President C. A. Stroble, after a two hours' meeting in Musicians" Hall, "was taken after due and deliberate consideration by members of the union, and is not to be construed as an attitude inimical toward organized labor."

Don't Wait for the Fatal Stages of Kidney Illness. Profit by Alexandria People's Experiences

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Alexandria proves the effectiveness of this great kidney remedy.

Mrs. A. W. Ballard, 506 South Alfred St., Alexandria, says: "I could hardly get around, my back hurt so. When I bent over I would get so dizzy I could hardly straighten up. There was a throbbing ache in my head most of the time and I always felt tired. Doan's Kidney Pills relieved me of all kidney complaint and I believe if hadn't taken them in time the trouble would have been pretty serious. I certainly can recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ballard had. Foster-Milburn, Co. Mfrs., Buffalo, N. Y.

BUILDS "BAD ROAD" TO TEST NEW OVERLAND

Novel Course Constructed in Los Angeles to Demonstrate Capabilities of Overland 4

To demonstrate fully the riding qualities of the new Overland 4, E. B. Wilson, manager of the Los Angeles branch of the Willys-Overland Pacific Company, has constructed a "bad road" in the heart of the California City.

So far as is known this is the first bad road is the first to be built for sales demonstration purposes. In the past it has been the custom for automobile salesmen to seek the smooth highways for demonstrating cars to prospective buyers. That the Willys-Overland has departed from this custom and is subjecting the Overland 4 to tests which ordinarily might be avoided, speaks well for the construction of this new car which has been announced.

The "road" constructed by the Willys-Overland in Los Angeles is described as being "about the worst" in the history of that city which is widely known for its smooth surfaced thoroughfares. It occupies a large tract of ground near the sales room of the company.

Although but a quarter of a mile in length almost every possible troublesome condition could be encountered in the course as it has been planned in this road. There are "bad" railroad crossings, numerous chuck holes, ruts, mud, sand, short turns, steps, cubings, etc. Nothing has been omitted to test the capabilities of the new car. The test track is so unusual that the big motion picture companies have built scenarios of comedy and drama, in which the track will be used for the main action.

The Overland salesman will drive the prospective purchaser over these hazards, in order that the passenger may judge for himself teh easy riding qualities of the car produced by the new three point spring suspension. The car will thus be sold on the quality is shows under what would ordinarily be considered the worst sales conditions.

Overland

TRADE MARK REG

The Greatest Improvement In Riding Comfort Since The Introduction of Pneumatic Tires

HERE is a brand *new* type of car. It solves the problem which has baffled automotive engineers—how to combine riding *comfort* with *light weight* and *economy*.

Our new *Three-Point* Cantilever Springs make this possible.

These are the *first* springs of their kind and they are made of chrome vanadium steel. They are exclusive with Overland.

Because of these springs, Overland 4 *combines* the riding qualities of large heavy, expensive, long wheelbase cars, *together* with the advantages and economy of small light cars.

With 100-inch wheelbase, Overland 4 has the luxurious riding ease of 130-inch Springbase.

The exclusive, Three-Point Cantilever Springs cushion the car so that it *rides well on all roads:* they reduce choppy rebounds and side swaying, protect the car from road shocks and *prolong* its life, minimize twisting or racking of frame and body, enable the car to hold the road better.

The car and passengers ride smoothly as though floating, free from road shocks that the *springs ward off.*

But this *new* riding comfort possible *only* with these Three-Point Cantilever Springs is but one of the advantages of Overland 4.

Its light weight makes possible great economy of *gasoline* and *tires.*

High quality materials insure durability. All vital parts of the front axle and steering gear and all highly stressed gears and shafts for driving the car are made of *alloy steel.*

The equipment list of Overland 4 is high grade, including Auto-Lite Starter and Lighting System—Electric Horn—Marshall Divan Upholstery—Springs—Demountable Rims—Three Speed Transmission—Slanting Rain Vision Windshield—Tillotson Carburetor—U. S. L. Batteries and many other high quality conveniences.

In every respect Overland 4 is a quality car. The body is all steel, all enamel, the brightest, hardest, most lasting finish.

Overland 4 has been tested for two years and more than 250,000 miles over the Rocky Mountains, prairies, through deep mud and scorching deserts—through quick sharp climatic changes. As a result of these tests we were able to judge the car's performance under every condition and to perfect it before offering it to the public.

There is no previous car of any size or price to adequately compare with the character of service Overland 4 introduces.

The farther you *ride in it* the more you will appreciate it. Come in, see the car and ask for booklet. The demand will be greater than the supply for a long time.

Overland 4 Touring, $845; Roadster, $845; Coupe, $1325; Sedan, $1375. Prices f. o. b. Toledo.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

HANGS HIMSELF

George Vorman, Austrian, Ends His Life at Morell Park Early Yesterday

Baltimore, Oct. 11.—Believed to be demented, George Vorman, an Austrian living at Eighth street and Georgetown road, Morrell Park, committed suicide shortly after 7 o'clock yesterday morning by hanging himself.

Mrs. Olga Vorman, his wife, had gone with the children to the home of Mrs. Benjamin Wheeler, a neighbor, after Vorman had threatened her life Tuesday. With Mrs. Wheeler she returned to the house yesterday to find the still warm body of her husband hanging by a rope which had been thrown over the kitchen door.

A neighbor of Vorman said he had seen the man a short distance from his home Tuesday talking to himself. Vorman left a lengthy note, written in his native language, but Mrs. Vorman was too much upset to translate it.

TWO MORE KILLED

Two additional fatalities were reported yesterday in the transcontinental flight Lieut. E. V. Wales, blinded by heavy snow, crashed against the rocky side of Overt Pass, Wyoming, and was instantly killed. His passenger, Lieut. William Goldsborough, was only slightly injured.

Worth D. McClure, observer on Major Sneed's machine, had his skull fractured when the machine crashed in landing at Buffalo, and died later.

WAGE INCREASE REFUSED

New York, Oct. 11.—The longshoremen's strike, by which the port of New York has been virtually tied up and as a result of which more than 40,000 men are idle, became associated with greater possibilities yesterday when the National Adjustment Commission ruled against the coastwise longshoremen on their demand for an increase of from 65 cents to $1.00 an hour.

The decision of the board was rendered following an all day session during which it took into consideration. Chairman William Z. Ripley said, the present earnings of the coastwise steamship companies and gave heed to their claims that competition of rail lines made it impossible for them to increase dock loading charges. The board, however, agreed to reconsider the question if present high costs of living continue and should coastwise freight rates be increased.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population, but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city. All laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Sec. 117. (b) The general assembly may, by general law or by special act (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns Coughed So He Couldn't Sleep

Bronchial coughs, tickling in throat and asthmatic spasms break one's rest and weaken one so that the system is run down and serious sickness may result. Enos Halbert, Paoli, Ind., writes: "I had a severe cold this fall and coughed continually, at night; could hardly sleep. The first bottle of Foley's Honey and Tar relieved me, entirely curing my cough." It covers irritated membranes with a healing and soothing coating, loosens the phlegm and clears air passages. Sold everywhere.

At The Ric nond Monday

—"and from there we went to Japan"

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it?

Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real: the kind of work that puts beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay, over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother:—
In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts

Telephone Rates Governed Always by Cost of Producing Service

IT IS AN UNCHANGEABLE law of trade that the price at which any service can be continuously sold is governed by the cost at which it can be continuously produced.

THERE IS NOTHING IN THE TELEPHONE BUSINESS THAT EXCEPTS IT FROM THIS LAW

IT IS GENERAL KNOWLEDGE that this company has been subjected for the last several years to constantly rising costs. Particularly from the date this country entered the war our company, like practically every other public utility, has been struggling under this steady increasing burden.

THE MATERIALS WE NEED have been scarce and expensive; the cost of labor has been going up, and in the face of such conditions the demands for service have reached the point where our resources and facilities are strained to the utmost.

WE CANNOT DO AS a private industry might: shut up shop until conditions become more nearly normal. We must stand ready at all times to serve the public, to make needed extensions to our plant and equipment and to meet the demands for more and more service.

WE WELCOME THESE obligations, but we have now reached a point where it has become our duty to ask the State Corporation Commission for such rates as will enable us to continue doing business and to provide sufficient revenue for the operations of the future.

X-RAY SHOWED THE RING

Owner of Stolen Gem Saw Accused Man Quickly Swallow it

Pittsburgh, Oct. 11.—The famous English thief who, after despoiling jewelers of gems, hoodwinked the police by hiding them in a very natural appearing glass eye, had nothing on First Lieutenant G. W. Wesley, a negro, aged 30, who is alleged to have swallowed a $250 diamond ring after stealing it from Miss M. B. Johnson, in the office of the Pittsburgh American.

But Wesley was dealing with a woman jealously watching her engagement band, which she had laid on her typewriter for a moment. When she turned her back Wesley is alleged to have picked up the ring. Miss Johnson saw him pass his hand over his mouth. After he had left the office she notified the police and he was arrested. An X-ray photograph taken of his stomach showed a ring, similar to Miss Johnson's engagement circlet of gold, inside of the former army officer.

KEPT HER AWAKE

The Terrible Pains in Back and Sides Cardui Gave Relief

Marksville, La.,—Mrs. Alice Johnson of this place writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shal lalways praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints. Cardui may women who once suffered in this way now praise Cardui for their present be just what you need. Thousands of good health. Give it a trial.

ACTRESS STRUCK BY LOVER

Nina Whitmore Alleges Assault by Eugene Walter in $50,000 Action

Los Angeles, Cal., Oct. 11.—Following the sensational assault upon her by Eugene Walter, the playwright, early Thursday morning in the Alexandria Hotel, Miss Nina Whitmore, a moving picture actress, and formerly a member of Ziegfeld's Follies, today filed a $50,000 damage suit against the playwright.

Yesterday Walter was confined to his room in the Hollywood Hotel, "suffering from a nervous collapse" according to the report. He would make no statement except to say he deeply regretted the episode

With her right eye bandaged nad the other flashing indignation and anger, Miss Whitmore denounced Walter's act as one inspired by jealousy.
